bottles

### COMMENT

Château d'Agassac 2023 showed us the Terrasse 5' (sandy and deep gravels) ability to give powerful yet elegant wines.

The blending with Terrasse 4' Cabernets (clayel gravels) also brings both verticality and lenght.

Currently under ageing process, the wine already delivers crunchy red fruits aromas with a hint of spicy notes.

Nice lenght and well-balanced freshness turns out to give a bright finish.
