

# ERRAZURIZ

— VINOS DE FAMILIA DESDE 1870 —

Dear Partners,

We are delighted to announce that Viña Errázuriz will expand the distribution of its sought-after Las Pizarras wines to La Place de Bordeaux. The first global release through this prestigious distribution network will be the outstanding 2022 vintage in March 2024 through CVBG and Joanne Rare Wines, with the exception of the UK market which will remain through local importer Hatch Mansfield.

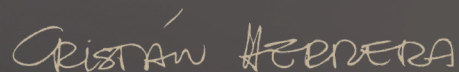

Las Pizarras was created with a terroir-driven philosophy and a vision of excellence to create a paradigm shift in quality for cool-climate Chilean wines. It designates a limited, Grand Cru equivalent production of specific blocks in Aconcagua Costa D.O. with a very pronounced influence of metamorphic rock with a high proportion of slate. The wines appeal to both the senses and the intellect; they are wines of pure expression and reflection of a place. The first release of Las Pizarras Chardonnay and Pinot Noir was in vintage 2014, and three years later, a coastal Syrah was added to the range.

2022 was an exceptional vintage with low yields and slow and steady ripening due to a dry and harmonious temperature pattern that delivered perfectly balanced wines with full aromatic intensity, great concentration and freshness that reflect the characteristics of our terroir.

This strategic distribution extension marks a significant step in further developing and consolidating Las Pizarras and Viña Errázuriz's image and recognition worldwide. We look forward to working together in this coming stage and appreciate your constant support and trust.

Las Pizarras 2022 will be released on Thursday, March 14<sup>th</sup>, 2024.

Best regards,

Cristián Herrera
